EDUCATION

MCA-Thiruvalluvar College Of Engineering & Technology

Aug 2022 - Apr2024

BCA-Indo American College Of Arts & Science

Sep 2019 - Apr 2022

PROJECTS

ENHANCING SECURITY WITH FACE BIOMETRIC-BASED ATM USER ACCESS CONTROL SYSTEMS USING MACHINE LEARNING

Implemented user-friendly interfaces using HTML, CSS, and JavaScript for effective data input and interaction.

Developed and implemented a cutting-edge system utilizing machine learning algorithms to enhance security in ATM transactions. The system integrates face biometric technology for user authentication, ensuring secure access control. Key responsibilities and achievements include

SOFT SKILLS

Adaptability: Successfully adapted to changing project requirements, showcasing flexibility and problem-solving skills.

TeamWork: Collaborated with cross-functional teams to achieve project milestones within tight deadlines.

Communication: Effectively communicated project updates to team members, resulting in improved collaboration.

Problem Solving: Analyzed complex issues in programming assignments and implemented innovative solutions.

SKILLS

Web Development
(Frontend-HTML, CSS, JS)

ADDITIONAL

Participated in the Python 3.4.3 training organized at Indo-American college in July 2021

Participated in the Java training organized at Indo-American college in July 2021

Participated in National Seminar on Data Analytics And ReactJS, 25th, February 2023

Participated in IOT Workshop Organised at Thiruvalluvar College Of Engineering & Technology

CERTIFICATIONS

Windows, MS Office

LANGUAGES

Tamil, English
